How to Use This Companion

Grade 4
Coloring with Purpose

What it is. Coloring with Purpose is a Core Connection Companion in The Writing Academy, LLC Supplemental Support System. Every page asks students to read closely, color with a reason, and prove their thinking with words from the passage. Coloring is never the whole task. It is the reward for careful reading and the way students show what they found.

Which passages. Each page uses the Low Stamina passage (Module 1) from PREPARE and Clusters 1 to 8. Students should have the passage in hand while they work. Every page names its passage in the title bar.

Why the pages are ordered by TEKS. The pages are not grouped by cluster. They are grouped under TEKS headings, so a teacher can pull the page that matches the TEKS her core reading language arts instruction is teaching this week. If your core lesson is on text evidence, turn to 4.7(C). If it is on theme, turn to 4.8(A). Each TEKS section opens with a heading page that lists every page in that section.

The core connection. Use a page after the core lesson as extra practice, as a small group task, or as a quick check. Because the passages are shorter Low Stamina texts that students already know, the thinking stays on the TEKS instead of on decoding a new text.

How to find a page. The Table of Contents lists every page with its activity type, TEKS, passage and cluster, and page number. The TEKS and its wording also appear in the footer of every page.

Printing. Every page is black and white and prints cleanly on any copier. The art is outline only, so students can color every part.

Answer Key. The Answer Key at the back is ordered by page number. For evidence tasks it gives the exact sentence from the passage. For open tasks it gives a model answer or look-fors. Accept any answer that is supported by the passage.

The page types. Find the Missing Detail, Find the Extra Detail, Color the Evidence, Paraphrase the Picture, Sequence the Scene, Cause and Effect Panels, Feelings Faces, Vocabulary Labeling, Compare Two Pictures, What Happens Next, Text Feature Labeling (Poem Parts or Setting Labeling for poems and stories), Main Idea or Theme Caption, Ask the Picture, Comic Strip Retell, Author's Purpose Palette, Connection Corner, Word Picture, Illustrator Alert!, Build the Scene, and Vocabulary Doodle Detective.

TEKS Connection and Why It Matters. A short line under each activity names every TEKS the page serves and why the task matters. Many pages include TEKS 3.7(E), because illustrating is one of the ways the TEKS say students interact with sources in meaningful ways. On these pages coloring and drawing are evidence work: students must return to the passage to decide what belongs in the picture.
