

What Is the Prompt Really Asking?

Advanced prompt analysis

Grade 3 • Cluster 3 • Module 2

WHAT WE ARE LEARNING

This week your child is learning to look past the surface of a tricky prompt and figure out **what it is really asking** them to do.

Esta semana su hijo aprende a descubrir lo que una instrucción complicada pide de verdad.

NOTICE IT TOGETHER

When a question could mean two things, ask your child which meaning makes the most sense and why.

Cuando una pregunta pueda tener dos sentidos, pregunte cual tiene mas sentido y por que.

TALK ABOUT IT

Ask your child: **"What is this question really after, underneath the words?"**

Pregunte: que busca de verdad esta pregunta, debajo de las palabras?

TRY THIS TOGETHER (NO MATERIALS NEEDED)

Play **What Do They Mean?** Say a riddle-like request, such as "tell me something that makes mornings better." Talk together about what a good answer would need.

Jueguen a Que Quieren Decir? Digan una peticion tipo adivinanza y conversen que necesitaria una buena respuesta.

How to help without giving the answer. You are not solving it for them. Just wonder out loud together, so your child practices thinking about what a question truly wants.
