

Explaining How Something Happens

A thoughtful sentence for a how question

Grade 3 • Cluster 4 • Module 2

WHAT WE ARE LEARNING

This week your child is learning to write a thoughtful sentence that explains **how** something happens, step by step and clearly.

Esta semana su hijo aprende a escribir una oracion que explica como pasa algo.

NOTICE IT TOGETHER

Ask your child to explain how something everyday works, how a plant grows, how you make their favorite snack.

Pida a su hijo que explique como funciona algo cotidiano.

TALK ABOUT IT

Ask your child: "Can you explain how that happens so clearly that someone else could picture it?"

Pregunte: puedes explicar como pasa eso tan claro que otro pueda imaginarlo?

TRY THIS TOGETHER (NO MATERIALS NEEDED)

Play **How Does It Work?** Pick something simple and take turns explaining how it happens in order, first this, then that.

Jueguen a Como Funciona? Elijan algo sencillo y por turnos expliquen como pasa en orden.

How to help without giving the answer. Just listen for the order. If a step is missing, ask what comes next, so the explanation stays clear and complete.
