

# How Are They Alike and Different?

Paired-passage how prompts

Grade 3 • Cluster 5 • Module 2

## WHAT WE ARE LEARNING

This week your child is learning to answer a prompt about **how two texts compare**, giving proof from each one.

*Esta semana su hijo aprende a responder como se comparan dos textos, con pruebas de cada uno.*

## NOTICE IT TOGETHER

When comparing two things at home, ask your child to give one real detail from each, not just a feeling.

*Al comparar dos cosas, pida a su hijo un detalle real de cada una.*

## TALK ABOUT IT

Ask your child: **"What proof from each one shows how they compare?"**

*Pregunte: que prueba de cada uno muestra como se comparan?*

## TRY THIS TOGETHER (NO MATERIALS NEEDED)

Play **One From Each**. Compare two shows or two meals; each point you make must include one detail from the first and one from the second.

*Jueguen a Uno de Cada. Comparen dos cosas usando un detalle de cada una.*

**How to help without giving the answer.** Just ask for proof from both sides. Help your child avoid leaning on only one text when the question asks about two.
