

From Plan to Finished Piece

Choose, justify, draft, revise, and teach

Grade 3 • Prepare • Module 4

WHAT WE ARE LEARNING

This week your child is putting the whole process together, choosing an idea, saying why, drafting it, improving it, and being able to **teach it back**.

Esta semana su hijo une todo el proceso: elegir, justificar, escribir, mejorar y enseñar.

NOTICE IT TOGETHER

When your child finishes something they made, ask them to teach you how they did it, step by step. Teaching is the deepest kind of knowing.

Cuando su hijo termine algo, pídale que le enseñe como lo hizo, paso a paso.

TALK ABOUT IT

Ask your child: **"Could you teach someone else how to do what you just did? Walk me through it."**

Pregunte: ¿podrías enseñarle a alguien lo que acabas de hacer? Explicámelos.

TRY THIS TOGETHER (NO MATERIALS NEEDED)

Play **You Be the Teacher**. Your child picks something they know how to do and teaches you the steps. You play the curious student and ask questions.

Jueguen a Tu Eres el Maestro. Su hijo le enseña algo paso a paso y usted pregunta.

How to help without giving the answer. Being the student is your whole job. The more questions you ask, the more your child has to explain, and explaining is where the learning sticks.
